DISCLAIMER

IES publications are developed through the consensus standards development process approved by the American National Standards Institute. This process brings together volunteers representing varied viewpoints and interests to achieve consensus on lighting recommendations. While the IES administers the process and establishes policies and procedures to promote fairness in the development of consensus, it makes no guaranty or warranty as to the accuracy or completeness of any information published herein.

The IES disclaims liability for any injury to persons or property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the publication, use of, or reliance on this document.

In issuing and making this document available, the IES is not undertaking to render professional or other services for or on behalf of any person or entity. Nor is the IES undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstances.

The IES has no power, nor does it undertake, to police or enforce compliance with the contents of this document. Nor does the IES list, certify, test or inspect products, designs, or installations for compliance with this document. Any certification or statement of compliance with the requirements of this document shall not be attributable to the IES and is solely the responsibility of the certifier or maker of the statement.

Contents

Foreword	1
1.0 Introduction	1
1.1 Purpose of this Standard Practice	1
1.2 Purpose of Roadway and Street Lighting	1
1.3 Roadway Lighting and Street Lighting	2
1.4 Related Documents	2
2.0 Classifications and Definitions	3
2.1 Roadway, Pedestrian Walkway, and Bikeway Classifications	3
2.2 Pedestrian Conflict Area Classifications	4
2.3 Pavement Classifications	4
2.4 Luminaire Classification System (LCS)	5
3.0 Design Considerations	6
3.1 Design Issues	6
3.2 Appearance and Scale	6
3.3 Visual Task	6
3.4 Integration with Non-Lighting Elements	6
3.5 Vertical Surface Illumination	7
3.6 Glare and Sky-Glow Issues	7
3.7 Impact of Headlights	8
3.8 Impact of Trees on Lighting	8
3.9 Spectral Considerations	8
4.0 Lighting Recommendations	11
4.1 Roadway Lighting	12
4.2 Street Lighting	12
4.2.1 Pedestrian Areas and Bikeways	12
5.0 Other Areas and Considerations	14
5.1 Intersections	14
5.1.1 Classification	14
5.1.2 Vehicular Traffic Volumes and Conflicts	14
5.1.3 Recommended Illuminance for Intersections	15
5.2 High Mast Lighting	15
5.2.1 Introduction	15
5.2.2 Benefits	15
5.2.3 Design Considerations	16
5.2.4 Calculations	16
5.2.5 Environmental Impacts	16
5.2.6 Economics	17
5.3 Crosswalks	17
5.4 Adaptive Lighting	18
5.5 Transition Lighting	18
