## STANDARD FOR SAFETY

## Low-Voltage Switchgear and Controlgear – Controllers for Drivers of Stationary Fire Pumps

UL Standard for Safety for Low-Voltage Switchgear and Controlgear – Controllers for Drivers of Stationary Fire Pumps, UL 62091

First Edition, Dated September 30, 2020

***Summary of Topics***

***This First Edition of ANSI/UL 62091, the common ANCE, CSA Group and UL (trinational) standard that is an adoption of IEC 62091, Standard for Low-Voltage Switchgear and Controlgear – Controllers for Drivers of Stationary Fire Pumps (IEC 62091, Edition 1:2007.)***

The new requirements are substantially in accordance with Proposal(s) on this subject dated April 3, 2020.

## Commitment for Amendments

This standard is issued jointly by the Association of Standardization and Certification (ANCE), the Canadian Standards Association (operating as “CSA Group”), and Underwriters Laboratories Inc. (UL). Comments or proposals for revisions on any part of the standard may be submitted to ANCE, CSA Group, or UL at anytime. Revisions to this standard will be made only after processing according to the standards development procedures of ANCE, CSA Group, and UL. CSA Group and UL will issue revisions to this standard by means of a new edition or revised or additional pages bearing their date of issue. ANCE will incorporate the same revisions into a new edition of the standard bearing the same date of issue as the CSA Group and UL pages.

This Standard is subject to review within five years from the date of publication, and suggestions for its improvement will be referred to the appropriate committee. The technical content of IEC and ISO publications is kept under constant review by IEC and ISO. To submit a proposal for change, please send the following information to inquiries@csagroup. org and include "Proposal for change" in the subject line: Standard designation (number); relevant clause, table, and/or figure number; wording of the proposed change; and rationale for the change.

This ANSI/UL Standard for Safety consists of the First Edition.

The most recent designation of ANSI/UL 62091 as an American National Standard (ANSI) occurred on September 30, 2020. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface. The National Difference Page and IEC Foreword are also excluded from the ANSI approval of IEC-based standards. Any other portions of this ANSI/UL standard that were not processed in accordance with ANSI/UL requirements are noted at the beginning of the impacted sections.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at https://csds.ul.com.

8 Constructional, functional and performance requirements ..... 38
8.1 General ..... 38
8.1DV Modification to 8.1 by adding the following: ..... 39
8.2 Constructional requirements for the type-tested devices ..... 39
8.3 Priority of operations for electric fire pump controllers ..... 47
8.4 Functional and performance requirements for components ..... 48
8.5 Priority of operations for electric fire pump controllers ..... 57
8.6 Functional and performance requirements for electric controllers ..... 58
8.6.11DV Addition of the following to Clause 8.6: ..... 68
8.7 Residential fire pump controllers ..... 69
8.8 Diesel engine fire pump controllers ..... 71
8.9 Automatic operation of a diesel engine drive controller – pressure-actuated ..... 77
8.10 Automatic operation of a diesel engine drive controller – non-pressure-actuated ..... 78
8.11 Methods of stopping diesel engine fire pump controllers ..... 78
8.12 Testing of diesel engine fire pump controllers ..... 80

8.13 Additional functional and performance requirements for foam pump controllers ..... 80
8.14 EMC requirements ..... 82
9 Tests ..... 83
9.1 Kinds of test ..... 83
9.2 Compliance with construction requirements ..... 84
9.3 Compliance with performance requirements ..... 84
