## STANDARD FOR SAFETY

### Meter Sockets

UL Standard for Safety for Meter Sockets, UL 414

Ninth Edition, Dated January 5, 2016

### **SUMMARY OF TOPICS**

***This revision of ANSI/UL 414 dated December 14, 2020 includes a revision to the dielectric test after short-circuit interruption test; [SA5.2.12](#)***

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The revised requirements are substantially in accordance with Proposal(s) on this subject dated October 9, 2020.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

### **Standard for Meter Sockets**

First Edition – October, 1957  
Second Edition – May, 1973  
Third Edition – August, 1974  
Fourth Edition – January, 1979  
Fifth Edition – December, 1986  
Sixth Edition – May, 1994  
Seventh Edition – March, 1999  
Eighth Edition – December, 2009

### **Ninth Edition**

**January 5, 2016**

This ANSI/UL Standard for Safety consists of the Ninth Edition including revisions through December 14, 2020.

The most recent designation of ANSI/UL 414 as an American National Standard (ANSI) occurred on November 12, 2020. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

The Department of Defense (DoD) has adopted UL 414 on November 20, 1987. The publication of revised pages or a new edition of this Standard will not invalidate the DoD adoption.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

## CONTENTS

### INTRODUCTION

1	Scope .....	7
2	General .....	8
2.1	Components .....	8
2.2	Units of measurement .....	8
2.3	Undated references .....	8

### ALL METER SOCKETS AND METERING TRANSFORMER CABINETS

#### CONSTRUCTION

3	General .....	8
4	Enclosure .....	9
5	Bases – Insulating Material .....	12
6	Current-Carrying Parts .....	14
6.1	General .....	14
6.2	Washers .....	15
6.3	Test blocks .....	16
7	Wiring Terminals .....	18
8	Spacings .....	21
9	Barriers .....	24
9.1	Insulating barriers .....	24
9.2	Restricting barriers .....	26
9.3	Isolating barriers .....	26
10	Wire-Bending Distance .....	26
11	Wiring Space .....	31
12	Provisions for Bonding and Grounding .....	32

#### PERFORMANCE

13	General .....	34
14	Heating Test .....	35
15	Short-Circuit Current Test .....	46
16	Short-Circuit Current Test with Specific Circuit Breaker .....	48
16.1	General .....	48
16.2	Test circuit calibration .....	48
16.3	Sample preparation .....	49
16.4	Closing .....	50
16.5	Peak let-through current .....	50
17	Rain Test .....	51
18	Concentric Knockout Rain Test .....	51
19	Insertion and Withdrawal Force Test for Meter Jaws .....	51
20	Dielectric Voltage-Withstand Test .....	52
20.1	General .....	52
20.2	Insulating barriers .....	52
21	Clamped Insulating Joint Test .....	52
22	Bonding Continuity Test .....	52
23	Test of Insertion and Withdrawal Force on Meter Base .....	53
24	Strength Test of Insulating Base and Support .....	53
25	Test of Torque and Force on Test Block .....	54

**RATINGS**

26	Voltage and Current Ratings .....	54
----	-----------------------------------	----

**MARKINGS**

27	General .....	55
27.1	Location .....	55
27.2	Identification .....	55
27.3	Ratings .....	56
27.4	Enclosure .....	56
27.5	Top (overhead) or bottom (underground) feed .....	57
27.6	Accessories .....	57
27.7	Circuit closers and disconnects .....	57
27.8	Neutral .....	58
27.9	Field installation .....	58
27.10	Terminals .....	58
27.11	Test blocks .....	60
27.12	Short circuit ratings .....	60
27.13	Low voltage rating .....	61
28	Permanence of Marking .....	61

**POST AND PEDESTAL TYPE METER SOCKETS****CONSTRUCTION**

29	General .....	61
30	Enclosure .....	63
31	Ventilation Openings .....	63
32	Mounting .....	65
33	Grounding .....	65
34	Grade Level .....	65

**PERFORMANCE**

35	Sprinkler Test .....	65
36	Crushing Deformation Test .....	65
37	Torque Deformation Test .....	66
38	Beam Loading Deflection Test .....	68

**MARKINGS**

39	Post Type Enclosures .....	69
40	Pedestal Type Enclosures .....	69

**METERING TRANSFORMER CABINETS AND METERING TRANSFORMER CABINET INTERIORS****GENERAL**

41	Details .....	69
----	---------------	----

**CONSTRUCTION**

42	General .....	69
42.1	Cabinets and interiors .....	69
42.2	Bus-to-bus and bus-to-wire connections .....	70
42.3	Sizing of bus bars .....	70
42.4	Spacings .....	70

## PERFORMANCE

43	Short-Circuit Test Performed .....	70
43.1	General .....	70
43.2	Tensile force .....	71
43.3	Cantilever force .....	72
44	Short-Circuit Test Not Performed .....	73
44.1	General .....	73
44.2	Construction .....	73
44.3	Supports .....	79
44.4	Bus bar rotation .....	81

## RATINGS

45	Details .....	81
----	---------------	----

## MARKINGS

46	Details .....	82
----	---------------	----

## TEST SWITCHES

### GENERAL

47	Details .....	83
----	---------------	----

## CONSTRUCTION

48	General .....	83
----	---------------	----

## PERFORMANCE

49	Temperature Test .....	83
----	------------------------	----

## SUPPLEMENT SA – METER SOCKET ADAPTERS

SA1	Scope .....	87
SA2	General .....	87
SA3	General .....	87
SA4	Heating Test .....	87
SA4.1	General .....	87
SA4.2	Meter socket adapters not intended for use in a specific meter socket .....	88
SA4.3	Meter socket adapters intended for use only in a specific meter socket .....	88
SA4.4	Meter socket adapters with provisions for connection of an alternative energy source .....	88
SA5	Short-Circuit Current Test .....	88
SA5.1	General .....	88

	SA5.2 Meter socket adapters with provisions for connection of an alternative energy source .....	89
SA6	General .....	90
SA7	Instructions .....	91

## **APPENDIX A Standards for Components**

## **APPENDIX B (Informative) Explanatory Information Regarding Wire-Bending Distance**

B1	General .....	93
