STANDARD FOR SAFETY

Automatic Electrical Controls for Household and Similar Use, Part 2-5: Particular Requirements for Automatic Electrical Burner Control Systems

UL Standard for Safety for Automatic Electrical Controls for Household and Similar Use, Part 2-5: Particular Requirements for Automatic Electrical Burner Control Systems, UL 60730-2-5

Third Edition, Dated January 30, 2014

Summary of Topics

The revision of the preface of the Third Edition of UL 60730-2-5, the CSA Group and UL (binational) Safety Standard of Automatic Electrical Controls for Household and Similar Use, Part 2-5: Particular Requirements for Automatic Electrical Burner Control Systems, is an editorial update. No changes in requirements are involved.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

Underwriters Laboratories Inc. UL 60730-2-5 Third Edition

Automatic Electrical Controls for Household and Similar Use, Part 2-5: Particular Requirements for Automatic Electrical Burner Control Systems

January 30, 2014

(Title Page Reprinted: September 30, 2019)

This national standard is based on IEC 60730-2-5, edition 3.2 (2009), which is based on the third edition (2000), its amendment 1 (2004), and its amendment 2 (2008).

Commitment for Amendments

This standard is issued jointly by the Canadian Standards Association (operating as "CSA Group") and Underwriters Laboratories Inc. (UL). Comments or proposals for revisions on any part of the standard may be submitted to CSA Group or UL at anytime. Revisions to this standard will be made only after processing according to the standards development procedures of CSA Group and UL. CSA Group and UL will issue revisions to this standard by means of a new edition or revised or additional pages bearing their date of issue.

All rights reserved. No part of this publication may be reproduced in any form whatsoever without the prior permission of the publisher.

This Standard is subject to review five years from the date of publication, and suggestions for its improvement will be referred to the appropriate committee. To submit a proposal for change, please send the following information to inquires@csagroup.org and include "Proposal for change" in the subject line: Standard designation (number); relevant clause, table, and/or figure number; wording of the proposed change; and rationale for the change.

To purchase CSA Group Standards and related publications, visit CSA Group's Online Store at store.csagroup.org or call toll-free 1-800-463-6727 or 416-747-4044.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

This ANSI/UL Standard for Safety consists of the Third Edition including revisions through September 30, 2019. The most recent designation of ANSI/UL 60730-2-5 as an American National Standard (ANSI) occurred on January 30, 2014. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface. The National Difference Page and IEC Foreword are also excluded from the ANSI approval of IEC-based standards.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at https://csds.ul.com.

CONTENTS

Preface	6
NATIONAL DIFFERENCES	
FOREWORD	10
1 Scope and normative references	10
1.5 Normative References	
2 Definitions	
2.2 Definitions of types of control according to purpose	
2.3 Definitions relating to the function of controls	
2.5 Definitions of types of control according to construction	
2.101 Definitions relating to type of burner (see 6.101)	
3 General requirements	
4 General notes on tests	
4.1 Conditions of test	
4.2 Samples required	
4.3 Instructions for test	
5 Rating	
6 Classification	
6.1 According to nature of supply	
6.3 According to their purpose	
6.4 According to features of automatic action	
6.7 According to ambient temperature limits of the switch head	
6.10 According to number of cycles of actuation (M) of each manual action	
6.11 According to number of automatic cycles (A) of each automatic action	
6.15 According to construction	
6.16 Not applicable	
6.101 According to type of burner	
6.102 According to type of pilot	
6.103 According to type of ignition	
6.104 According to starting fuel rate	
7 Information	
8 Protection against electric shock	
8.1 General requirements	
8.3 Capacitors	
9 Provision for protective earthing	
10 Terminals and terminations	
11 Constructional requirements	
11.1 Materials	
11.3 Actuation and operation	
11.4 Actions	
11.10 Equipment inlets and socket-outlets	
11.11 Requirements during mounting, maintenance and servicing	
11.13 Not applicable	
11.101 Flame detector constructional requirements	
12 Moisture and dust resistance	
13 Electric strength and insulation resistance	
13.1 Insulation resistance	
13.2 Electric strength	

	Heating	
15	Manufacturing deviation and drift	
	15.5 Operating times	
	15.6 Operating sequence	
16	Environmental stress	
	Endurance	
17	17.1 General requirements	
	17.16 Tests for particular purpose systems	
18	Mechanical strength	
10	18.2 Impact resistance	
10	Threaded parts and connections	
	Creepage distances, clearances and distances through solid insulation	
	Resistance to heat, fire and tracking	
	Resistance to corrosion	
	Electromagnetic compatibility (EMC) requirements – emission	
	Components	
	Normal operation	
	Electromagnetic compatibility (EMC) requirements – immunity	
	Abnormal operation	
	27.3 Over-voltage and under-voltage test	
28	Guidance on the use of electronic disconnection	
Annex	H (normative) Requirements for electronic controls
