

UL 462

STANDARD FOR SAFETY

Heat Reclaimers for Gas-, Oil-, or Solid Fuel-Fired Appliances

UL Standard for Safety for Heat Reclaimers for Gas-, Oil-, or Solid Fuel-Fired Appliances, UL 462

Third Edition, Dated December 13, 2010

Summary of Topics

This revision to UL 462 is being issued to remove the reference to the withdrawal date of UL 873 and to address universal upkeep of UL Standards for Safety. These revisions are considered to be non-substantive and not subject to UL's STP process.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin. Changes in requirements are marked with a vertical line in the margin and are followed by an effective date note indicating the date of publication or the date on which the changed requirement becomes effective.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

The requirements in this Standard are now in effect, except for those paragraphs, sections, tables, figures, and/or other elements of the Standard having future effective dates as indicated in the note following the affected item. The prior text for requirements that have been revised and that have a future effective date are located after the Standard, and are preceded by a "SUPERSEDED REQUIREMENTS" notice.

INTRODUCTION

1 Scope	5
2 Components	5
3 Units of Measurement	6
4 Undated References	6
5 Glossary	6

CONSTRUCTION

6 Components	7
7 Assembly	7
8 Materials	8
9 Electrical Enclosures	9
9.1 General	9
9.2 Doors and covers	11
9.3 Openings	12
10 Supply Connections	19
10.1 General	19
10.2 Leads	19
10.3 Terminals	20
10.4 Wiring space	21
10.5 Power supply cords	21
11 Current-Carrying Parts	22
12 Switches and Controllers	22
13 Mounting of Electrical Components	22
14 Internal Wiring	23
14.1 General	23
14.2 Wiring methods	23
15 Separation of Circuits	24
16 Bonding for Grounding	25
17 Motors and Motor Overcurrent (Overload) Protection	27
18 Capacitors	30
19 Insulating Material	30
20 Electrical Spacings	30
20.1 General	30
20.2 High-voltage circuits	31
20.3 Low-voltage circuits	32

PERFORMANCE

21 General	33
22 Mounting Positions	33
23 Test Voltages	34
24 Input Test	34
25 Heating Test	34
25.1 Test installation	34
25.2 Temperature measurements on other than electrical parts	38
25.3 Temperature measurement on electrical components	41
25.4 Test method I (with air or water circulation)	42
